VOLUME

ALBUQUERQUE, NEW MEXICO, SATURDAY JULY 9, 1904.

NUMBER 137

OFFICIAL MATTERS

Capitol Custodian Committee Plans For Blind Asylum.

THE TERRITORIAL LAND BOARD

A post office has been established at El Vado, Rio Arriba county, to be served from Lumberton, thirty-three miles north. Ella Schaffranke has been appointed postmaster.

Capital Custodian Committee.
The capital custodian committee was in session at Santa Fe yesterday forenoon. None but routine business was brought before it. Monthly accounts were audited and ordered paid. There were present Solicitor General E. L. Bartlett, and Land Commissioner A. A. Keen, Judge N. B. Laughlin, chairman of the board, being out of the city.

Plans for Asylum for the Blind.
Last week at Alamogordo the board of trustees of the New Mexico Institute for the Blind met and accepted the plans of Frank Paradise of Denver, Colorado, for the asylum to be erected at Alamogordo. A beautiful plot north of the city has been selected for the site of the institute, upon which work is to be commenced very soon. The board of trustees consists of A. J. King, president; R. H. Pierce, secretary, and James H. Laurie of Alamogordo, Oscar C. Snow and Dr. Gerber of Las Cruces.

Territorial Land Board.
The regular monthly meeting of the territorial land board was held yesterday forenoon at its office in the capitol at Santa Fe. There were present Governor M. A. Otero, Solicitor General E. L. Bartlett and Land Commissioner A. A. Keen, who acted as secretary. Routine business was transacted. Accounts were audited and allowed. Two proposals for the lease of the salt lakes in Socorro county, with the privilege of taking salt therefrom were received. The bids were so small that they were rejected and a resolution was passed declaring that it was the sense of the board that no bids of a smaller sum than \$500 per annum for the lease of the lakes be considered. The board then adjourned until the next regular monthly meeting.

FOURTH OF JULY PARDON

CAMILLO BERARDINELLI RESTORED TO LIBERTY FOR VALUABLE SERVICES TO THE TERRITORY AND ON ACCOUNT OF GOOD CONDUCT.

Executive office, Santa Fe, N. M., July 2, 1904.

Whereas, it has become the general custom on each Fourth day of July, the anniversary of our independence, that some unfortunate should receive consideration from the executive, and

Whereas, the board of commissioners of the territorial penitentiary, and Hon. H. O. Bursom, superintendent, recommend and strongly urge that Camillo Berardinelli, now confined in the territorial penitentiary, be granted a full and complete pardon, on account of his faithful and deserving conduct, and for the reason that he has rendered valuable service to the territory of New Mexico, and has at all times been trustworthy and reliable; and

Whereas, After due consideration and examination into the case, I believe that the said Berardinelli is worthy of executive clemency;

Now, therefore, I, Miguel A. Otero, governor of the territory of New Mexico, by virtue of the authority in me vested, and in furtherance of the aforesaid custom desiring that the same may be perpetuated, do on this second day of July, A. D. 1904, grant to the said Camillo Berardinelli, a complete pardon from further service of sentence, the same to take effect the Fourth day of July, A. D. 1904; and the superintendent of the territorial penitentiary, upon receipt of this executive order, properly signed and sealed, will act accordingly.

Done at the executive office this, the 2nd day of July, A. D. 1904.
Witness my hand and the great seal of the Territory of New Mexico.

MIGUEL A. OTERO,
(Seal.)
By the Governor,
J. W. RAYMOND,
Secretary of New Mexico.

Deming Team Next.

Manager Bohlinger is now negotiating with Deming for two games on Saturday and Sunday, July 9 and 10. While it is not settled to a certainty that they will be here, it is very probable. Las Vegas, which has almost as good a team as Albuquerque, will probably be the attraction on July 10 and 11.—El Paso News.

Assessment of Mohave County.
The amount of taxable property in Mohave county is approximately \$1,100,000, a few thousand dollars in excess of that of last year. While Gold Road and Leland show an increase

other towns—no instance Chloride—shows a decrease. No assessment is made against the Santa Fe railroad, owing to the agreement to pay to the county \$175 per mile of main line of track, and upon which no computation of value is made. No listment or levy is made against the Arizona & Utah or Mohave & Milltown railroads owing to exemption under the law.—Kingman, Arizona, Miner.

W. P. Williams has resigned his position as manager of the San Jose market and will leave in a few days for Tierra Amarilla, N. M., where he will become manager for Thos. D. Burns, who has several stores in that section of the country. Herbert L. Brooks, son of Geo. L. Brooks, will succeed Mr. Williams as manager of the San Jose market.

THEY DID NOT HEED GOOD ADVICE

John Mitchell Declared Colo- rado Strikers Could Not Win Over a Month Ago.

THE LETTER WAS SUPPRESSED

A dispatch from Trinidad Colorado, dated July 6, says:

A letter from President John Mitchell, of the United Mine Workers of America, dated June 2, and which has been in the possession of district officers for some time, advising them to call off the strike, was made public today. The letter was in the possession of officers of the district organization at the time of the Pueblo convention, but its contents were suppressed until after the vote on the continuance of the strike had been taken and the convention adjourned.

While the district officers claim they are still receiving aid from the national organization as well as from other sources it is believed that the publication of the letter will end the strike and that there will be effort by the strikers to get back to work. The letter follows:

"Office of National President, United Mine Workers of America, Indianapolis, June 2, 1904.—Mr. Harry Housfield, Trinidad, Colo.: Dear Sir and Brother.—At the last meeting of the national executive board, held in this city April 27 to May 1, inclusive, a motion was adopted instructing the three resident officers to take such steps as they might deem necessary to close up affairs in Colorado. Since the adjournment of this meeting we have made a very careful investigation into the status of the strike and have exhausted every means of our command to effect a settlement upon any basis that would secure to our membership some concession. In all of these efforts we have failed, the coal companies refusing to recognize or to confer with any one not actually in their employ, and their representatives confidently stating that they have a sufficient number of men at work to operate their plants and to supply them with all the coal they require to fill their orders. Close inquiry upon the part of our representatives satisfies us that the mines are being operated with reasonable success and there is no possibility of winning the strike. For this reason we have decided to bring the strike to a close at the earliest possible date.

"You are therefore advised to call a meeting of the executive board members, organizers, financial representatives and district officers to be held within the next week. At this meeting the national representatives and district officers should issue a call to all local unions in district 15, instructing them to elect delegates to attend a special district convention, to be held not later than June 20, at such place as may be decided upon at the meeting above mentioned.

"The purpose of such special convention to be the consideration of the best methods whereby the strike can be brought to a close and a general resumption of work be effected. You are authorized to notify the delegates attending such meeting that the national organization having expended approximately \$500,000 in support of the strikers in district 15, now finds itself so pressed for funds that it can not continue those expenditures after the close of this month.

The above is only a part of the letter the balance going into details as to the 'most expensive strike in the history of the organization.'

The letter is signed by John Mitchell, president; T. L. Lewis, vice president; W. B. Wilson, secretary; treasurer United Mines Workmen of America.

THAT VETERAN THIEF

CAME HERE FROM EL PASO, WHERE HE IS WELL KNOWN.

The following is a clipping from the El Paso Herald:

Manuel Cidron, whose escapades in this city would fill a book, is under

arrest in Albuquerque for stealing, and the chief of police of that city evidently wants to get rid of him, as he has written to El Paso officers inquiring if they would like to have him back.

Cidron, about two weeks ago, while working about the court house yards as a trusty, escaped from the custody of the janitor under whom he was working, and stealing Deputy Sheriff Will Ryerson's bicycle, disappeared. Only about two weeks before that he escaped in a similar manner and was recaptured while attempting to get out of town with a bunch of Mexicans for an employment agency.

Cidron is a kleptomaniac, and in the past year has been under arrest no less than 15 times for stealing small articles. He always escaped with a small fine for his offenses, which were regarded as mere peccadilloes until the last time he was before Judge Sweeney on the charge of stealing a pair of trousers, when he was given 15 months in the county jail. It was while serving this sentence that he made his escape.

Just a short time before he was last arrested in this city, he escaped from the police in Juarez as they were taking him to the Mexican Central train to be sent to Yucatan, where he had been sentenced to five years in the army. Breaking away from the officers he made for the American side, and succeeded in getting across in safety, where he was arrested, but he refused to go back to Mexico.

Sheriff Boone will bring Cidron back if the Albuquerque authorities will turn him over to him.

Cidron was bound over the grand jury in Judge Crawford's court the other day. He is evidently a veteran thief, and was much surprised when he realized what he was up against in New Mexico.

Marshall McMillin received a letter from Sheriff Boone yesterday, but it has not been decided what will be done in Cidron's case.

A NEW MEXICO TEACHER HONORED

TWO RACE MAPS, PREPARED BY MISS GUINEY OF DEMING, AT- TRACTS ATTENTION.

Miss Ella P. Guiney, who for several years has had charge of the seventh and eighth grammar grades of the Deming public schools, has just been informed by the manager of the New Mexico educational exhibit at the Louisiana Purchase Exposition, that two race maps were prepared by her for the Deming public school display there, have attracted a great deal of attention from many thousands of visitors. It seems that Miss Guiney has contributed an absolutely new idea to the cause of education, and one which will no doubt be extensively copied.

These race maps, of which there are two, one of the eastern and one of the western hemisphere, are each about twenty-two inches in diameter. Upon them are drawn the equator the tropics, and the polar circles, thus indicating distinctly the different zones. Miss Guiney gathered, from many sources, very small pictures of as nearly a uniform size as possible of the diverse peoples of the various nations of the earth, showing their own particular costumes. Of these little figures there are scores and scores. Each one is pasted upon that portion of the map representing the country to which they belong.

While a few product and animal maps have been published in the past, these appear to be the first real race maps that have ever been made.

Miss Guiney is a very intelligent and able woman. A year or so ago she sold to the Santa Fe railroad two unique and interesting maps. One representing New Mexico, and showed the location of all the Indian pueblos of the present day, as well as the cities of all the prehistoric ruins with which the territory is dotted. The other is a map of Texas, New Mexico, Arizona and Mexico, showing the lines of travel followed by the early explorers Cabeza de Vaca, Fry, Marcon de Niza, Coronado and Espejo. The 'routes' on this map were determined by a close study of the original writings by members of these expeditions, and, so far as information is at present available, are absolutely reliable.

The maps were accompanied by a strong and scholarly article entitled 'The Geography of New Mexico with Reference to Its History and Archaeology.'

Miss Guiney is a high-class teacher, a person of much literary and inventive skill and ability, and one not afraid of any amount of hard work.

Will to be Probated.

The probate of the last will and testament of the late Mrs. Mary Duncan, wife of Public Printer James B. Duncan, has been fixed for the first day of August before the probate court of San Miguel county.

Judge D. H. McMillan, of Socorro, who was at Santa Fe, came down from the north last night, and continued south to Socorro.

KILLING AT DEMING

Negroes Got to Fighting and One Received a Fatal Shot.

PISTOLS INSTEAD OF RAZORS

Special to The Citizen.

Deming, July 6.—Last night between 11 and 12 o'clock two negroes named Walter Armstrong and Sam Cherry got into into a fight near the Bank of Deming building. Armstrong was being badly beaten up when William Thompson, another negro rushed in and tried to stop the fight.

Thompson, who is a big strong man, succeeded in getting them apart; but Cherry drew a gun and and shot at him three times. One shot proving fatal, the wounded man dying in a few minutes.

Duck Galbraith, the marshal, took two shots at Cherry as he ran off in the darkness, both of which took effect, although the wounds are not considered serious.

Cherry escaped at the time, but later surrendered.

It is not known whether the man who was beaten up will recover.

MERINO'S STORY

OF THE KILLING OF PETER BER- ILAN NEAR CERRILLOS ON MONDAY.

Yesterday, The Citizen published a telegram from Cerrillos, giving some facts relative to the killing of Peter Berilan by John Merino, both Italian coal miners. At first the killing appeared to be a cold blooded affair, but, if telling the truth, Merino's story shows that he had some cause for committing the deed.

His Story of the Deed.

John Merino, the Italian coal miner, charged with the murder of Peter Berilan at Cerrillos Monday afternoon, who gave himself up to the authorities immediately after the deed, was examined before Justice of the Peace A. L. Kendall and bound over in the sum of \$5,000 to appear before the next grand jury. Merino was unable to furnish this bond and thence was taken to Santa Fe and placed in the county jail. He tells the following story of the crime:

He has been in this country, since July, 1902. He is a coal miner and came from Guadalajara, Mexico, where he has worked for about four months. He is a member of the order of the United Coal Miners and went on a strike while working at the Madrid coal mines about eight months ago. A few days ago he says he expected to get work in the mines a few miles from Cerrillos. He visited that place Monday and picked up, while there a miner's candle stick. While on the way to Cerrillos, he encountered Peter Berilan, who had with him a cousin and two other men. Merino asked Berilan to pay him 50 cents, which, so he claims, Berilan owed him. A discussion arose and Berilan's cousin remarked that he would pay the 50 cents by main strength, whereupon a fight ensued, in which Merino inflicted fatal injuries upon Berilan with the miner's candle stick. The prisoner claims that all the four men jumped on him and tried to do him bodily harm.

This is the substance of Merino's story as told in the Santa Fe county jail where he now is.

MARKET LETTER

Special Correspondence.

Kansas City, Mo., Monday, July 4.—Total supply of cattle here last week dropped off \$500 head, and a good part of the loss was prime beef steers. The best beef cattle sold steady to strong all week, good fed westerns selling at \$5.35 to \$5.75, and one bunch of Oklahoma Herefords going at \$6.10, top of the year for range bred steers. Medium grades of killing cattle are 10 to 15 cents lower. Straight grass cows and heifers sell at \$2.50 to \$2.80, and dry lot steers at \$3.50 to \$3.75. Inquiry for stockers was good, and the best kinds gained 10 to 15 cents; feeders were also strong all week. Western and Panhandle stockers and feeders, if they have quality, sell as high as natives, and are preferred in many cases, particularly by Illinois feeders; they range from \$2.25 to \$4.75. Some whitetail, deer-horned Panhandle feeders, 900 lbs., sold at \$4.50 this week. 32,000 head of cattle were taken to country feed lots from here last month, very heavy business for so early in the season. Veal calves gained 10 cents last week, the best being \$4.75. Traders figure that best beef cattle will hold up, but market for other kinds, including stockers and feeders, is uncertain, with chances favoring lower prices.

Today is a holiday at all the markets, with, of course, no trading.

Sheep and lamb prices were again lower last week. Chicago has had a bad break lately, incident to the advent of the first heavy sheep from the northwest, and it has been reflected here. Texas muttons sold at \$3.75 to \$4.25 at the close of last week; spring lambs bring \$4.50, and Texas yearlings sold at \$5.00 during the week. No western sheep have been received, most of the stuff being common natives, even up to \$1.00; wethers, \$4.50. Prices appear to be settled, and not much damage is looked for soon. Stock and feeding sheep and breeding ewes are wanted here, at from \$2.50 to \$3.25, but few are coming.

CLOSED THE STORE.

Colorado Supply Company Have Guit Business in Gallup.

Yesterday morning the employees at the Colorado Supply company's general merchandise store in Gallup began to inventory, preparatory to moving the stock to Gibson and combining it with the stock there.

Just why the company has taken this step is not known although it is understood that the business here has not been paying one for some time. It was known as store No. 21.—Gallup Republican.

WOOL CROP OF NEW MEX. ICO WILL NOT BE SHORT.

H. B. Van Slyke, live stock agent for the Santa Fe at this point, has returned from a business trip through New Mexico. He says:

"While it has been very dry in New Mexico, rains have started falling and the ranges in the northern part of the territory are now in good shape and the grass is up until the whole country looks as if it were covered with a green carpet. In southern Colorado the conditions there could not be better.

"The wool growers are now shipping wool to the eastern markets and from what I could learn I believe the wool crop this year will be as heavy as it has been in the past. Some few sheep were lost owing to the drought and the lamb crop will be light."—El Paso Herald.

Digging Wells.

Wm. Lane, of Corona, a well known well driller of that vicinity, was in town Thursday. He has just finished an 800 foot well near there which pumps 150 gallons per minute without apparently decreasing the flow. He has also finished a 500 foot well at Fort Stanton and secured the contract to dig 500 feet deeper.—Alamogordo Journal.

ROBBED OF FIVE HUNDRED DOLLARS

SOME ONE BROKE INTO OFFICE OF HON. FELIPE CHAVES AT BELEN.

Last night, between 9 o'clock and 4 this morning, some one broke into the office of Hon. Felipe Chaves, at his residence in Belen, and robbed it of a family iron chest, which contained \$500 in money, and many thousands of dollars in bonds and certificates.

When Mr. Chaves got up this morning, said, as usual, went in to his office to enjoy a smoke after breakfast, he was surprised to find that some unwelcome visitor had made his appearance. He sneaked off the iron chest and its contents. The entrance had been made through one of the windows. The bonds and certificates are of no consequence whatever to anyone except Mr. Chaves and maybe, at a very early date, the robber will return these, but of course he will keep the money.

There is no due to the robber or robbers, as no suspicious characters have been noticed lingering around the Chaves residence for some time. The thief may be some one thoroughly acquainted with the premises, and knew what the little iron chest contained.

The theft was promptly reported to Sheriff Baca at Los Lunas, and he, with the Belen deputy, is working on the case.

ACCIDENT AT GALLUP

BOY INJURED IN A FOURTH OF JULY EXPLOSION.

Last Sunday afternoon, says the Gallup Republican, Emil Williams was busy making himself a cannon out of a piece of gas pipe. He had the thing completed, and was in the act of loading it, when it prematurely exploded. Just what caused the premature explosion is not definitely known, but it is supposed that while he was driving in the powder that the rod with which he was tamping it accidentally hit the side of the gas pipe,

which caused a spark, and this touched off the powder.

At any rate, and whatever may have caused it, the pipe flew into many pieces, when the explosion took place, and some of the pieces embedded themselves in Emil's body.

His left hand was badly cut and pieces of the pipe had entered the fleshy part of his legs, and had gone clear to the bone. His face was badly marked by powder. Dr. Wilson was called and extracted the pieces of iron, and the young man is getting along nicely.

W. V. Walton, Harry Benjamin, Roderick Stover and George H. Thom as left the city this morning in a four-horse wagon for the upper Rio Pecos country, where they will fish and hunt for a few weeks.

POLICE COURT

Common Drunks—South First Street Fighters Fined \$5 Each.

TWO OTHER CASES SETTLED

R. Johnson and T. H. Light inhibited too freely yesterday afternoon and paid \$5 each this morning in Judge Crawford's court for their trouble.

Yesterday afternoon Harry Bevering and John Clifford went to John Cornetto's place on South First street and got into an argument between themselves. Cornetto did not like the loud talking and ordered Bevering out of the place, when Bevering drew back a beer glass and made a motion as if to strike Cornetto. Cornetto walked out from behind the bar and grabbing a lemon squeezer struck Bevering in the head and then proceeded to put him out, and also threw out the satchel which had been lying behind the bar. Bevering was bleeding quite badly and had Cornetto arrested. This morning Judge Crawford decided that both men were to blame and fined them each \$5, which was paid.

In the case of John Rowd very is B. Miller to obtain possession of a horse which Rowd says he bought from the city and which he loaned to Miller. Miller claims to own the horse and Judge Crawford rendered judgment for the plaintiff. Attorney Heacock took an appeal.

Last Wednesday John Barango of the Whitney company, bought some furniture of Mrs. F. H. Richards and her sister, Mrs. Hopkins, at 720 North Fifth street. Barango claims he purchased a washstand with other goods but Mrs. Richards backed up on the contract. Attorney Wilkerson was for the defendant and after quite a long argument between Attorney Hickey and Wilkerson, Judge Crawford decided in favor of the defendant.

FREE FOR ALL FIGHT

CONDUCTOR, SHERIFF, BRAKE- MAN AND PASSENGERS ALL IN THE MIX-UP.

There was a free-for-all fight on the Fourth of July excursion train Monday night, returning from Hagerman, N. M., to Roswell.

The starting of the trouble was a misunderstanding between Conductor Patton and Policeman Carthy of Roswell. Carthy struck the conductor a terrible blow on the head with his six-shooter and immediately there was a free-for-all fight.

Sheriff Toole struck one of the passengers on the head with a six-shooter. One of the trainmen struck William Farnwall of Roswell in the face with a six-shooter. The train was crowded and the passengers were panicky. No arrests have been made.

Unknown Animals.

Lee Perciful and his dogs killed four animals Sunday that seemed to be traveling through the country. Although small—a little larger than a ground squirrel Mr. Perciful said that each one gave them a stiff fight. He brought them to town Monday, but no one seemed to know what they were.—Elida News.

Drilling Artesian Well.

Drilling on the artesian well on the United States Indian industrial school grounds, Santa Fe, is progressing rapidly under the direction of Gus Mulholland, the contractor. The drill is down 280 feet and is working in bed rock.

Triple Murderer Hanged.

Michigan City, Ind., July 8.—Jerry Duggan, who murdered Mrs. Sarah Ramsey and her two children near Terre Haute, was hanged today in the Michigan City state prison.

This morning Dr. D. L. Conner, a well known osteopath of Phoenix, Arizona, arrived, and will visit his brother, Dr. C. H. Conner, also an osteopath, for a few days after which he will proceed to St. Louis to attend the World's Fair.

POLICE COURT

A Veteran Thief is Sentenced to the County Jail.

WESTERFELD LEFT THE CITY

James Rush was arrested yesterday afternoon for being drunk and sleeping on the sidewalk. He paid \$5 this morning.

John Henan was drunk and got five days.

A Tough Customer.

The case against Manuel Cidron, the veteran thief, who stole three pairs of trousers from Simon Stern's store, came up this morning. Cidron is evidently an old offender, as when asked by Marshal McMillin how many times he had been in jail in 201 Paso for stealing, replied that he could not remember. He has always been charged with petty larceny heretofore, but this time the charge was made a felony, and he was bound over to the grand jury under \$500 bonds. The penalty in a case like this is about two years, and perhaps Cidron will wake up and get that perpetual smile off his face when he is told this. He is of a very serene disposition, when asked a question only smiles very sweetly.

Leaves the City

The case of William Westerfeld came up this morning. Westerfeld discharged a revolver in a little girl's face during the afternoon of the Fourth, and was arrested. When the court called his case this morning he did not put in an appearance, and on inquiry it was found that he had left the city for parts unknown.

HUNTING FOR HER BOY

City Marshal McMillin is in receipt of the following self-explanatory letter:

"Elkhart, Ind., July 8.

"To Whom it May Concern:

"Will you please put an item in your paper asking if any one in your city knows or has known lately of the whereabouts of Walter R. Scott, formerly of this city, but who left here the 4th of April, and has not been heard of since the 11th of April. He left Blanchard, Ariz., to go to work in the R. R. shops.

"He is all I have and I a widow past 71. For God's sake help me find him."

"Yours Very Truly,

MRS. NANCY M. SCOTT.

801 Sherman St., Elkhart, Ind.

ANOTHER VICTORY.

Silver City Wins Tenning Game and \$50 Prize at Deming.

Sunday's big game of ball at Deming for a purse of \$50 was won by Silver City says the Independent. It took ten innings to decide the contest, which was as good as the best ever witnessed in Deming. Hall, of El Paso pitched for Deming, the nine being strengthened by the services of Hidalgo also. Deming played a fast game Hughes and Lawhorn being particularly conspicuous in this respect.

Wilson pitched a winning game for Silver City receiving excellent support throughout. Both, the new first baseman, played like a professional. The game was cleanly played and was witnessed by a large crowd. Deming treated the visiting players with great courtesy and entertained them sumptuously. The Yellow Kids now willingly admit that Silver City has the best team in New Mexico.

FIGHT AT THOREAU

J. McCOY SHOT IN THE LEG BY J. WEASTLEY.

Special to The Citizen.

Thoreau, N. M., July 6.—Bad news feeling between J. Weastley, a station boy, and William Horn—don, employed at the American Lumber company's camp. Thoreau, brought on a fight yesterday morning which resulted in J. McCoy being shot in the leg and having badly fractured by a six-shooter in the hands of J. Weastley.

Horn, who is a nephew of the McCoy's, entered the stable on the Fourth and in the understood to have killed J. Weastley, and in the fight that followed was whipped. Jessie McCoy followed and struck J. Weastley several times on the head with a gun, badly cutting his scalp. On the morning of the 5th McCoy and son Jessie, with J. Horn, met Weastley and threatened him and displayed his guns. Weastley and Jessie McCoy's gun opened fire with above result. Weastley then mounted his Superintendent Davis' favorite horse, Brownie, and made his escape.

McCoy was taken to the Albuquerque hospital on the early train this morning.
